The trouble about steadfast people is that it goes so hard with them if they get stuck in the wrong place.

## FINE PROPERTY AT SAWTOOTH

**HEAVY STOCKHOLDERS INSPECT THE SUNRISE AND ARE WELL PLEASED.**

**SAWTOOTH, Nev., Oct. 19.**—Mr. Warner, of the Warner-Stewart company, which is operating on the Sunrise group, came to camp about the first of the month and has been spending several days inspecting the work at the mine, says the Humboldt Star. Very little has been made public during the last month concerning the progress of the work on this property, but nevertheless there has been something doing on the Sunrise.

About September 1 a contract was let to Wesley Ellis to sink a double compartment shaft near the main ledge. At present the shaft is down 100 feet and about fifteen feet of crosscutting has been done from the 100-foot level. It is thought that about twenty-five or thirty feet of crosscutting will be sufficient to cut the ledge. There are several open cuts and shallow shaft along the main ledge for a distance of about 1000 feet. In fact, enough surface work has been done to prove beyond question that the ledge is a very strong one. The width averaging from four to six feet and the surface values everywhere are most encouraging.

On the surface near the 100-foot shaft the values run from \$50 to \$350 in gold and silver. Five hundred feet from the shaft values equally high have been obtained and it is the opinion of all who have spent any time prospecting this ledge that it is one of the best prospective mines in Humboldt county.

Four other members of the Warner-Stewart company joined Mr. Warner at Sawtooth on October 8 and spent a day on the property. That the company is very much encouraged with their mine is shown from the fact that a carload of lumber is now steadily being freighted from Humboldt to the property. A new whim and a gasoline engine have also recently been hauled to the property. The hoisting so far has been done by means of a whip. That the company has great confidence in the Sunrise group is revealed in the fact that they have recently taken over the three Blue Point claims and the Sunrise Extension joining the Sunrise group, and have organized another company to operate upon the Blue Point group.

**THE TRUE VEIN.**  
Charles Scossa, after having driven about fifty feet of tunnel, has struck the true vein at a depth of about forty feet. He is now about six feet in ledge matter and there is no indication of the other wall. The ledge matter consists of chert and porphyry quartz. Silver specks are easily seen in the chert and the porphyry pans freely. After getting the other wall it is Mr. Scossa's intention to drift along the ledge.

**THE BLACK CAT.**  
The 50-foot tunnel on the Black Cat which Frank Wootan has under contract, is now in the hill about forty feet. A change in formation has recently occurred and it is thought that the ledge will soon be encountered. The ledge will be cut at a depth of about forty-five feet and if the values in the tunnel are as good as the surface values a large body of shipping ore will have been found.

**TAKE YOUR BLANKETS.**  
Miners Forced to Sleep Out of Doors at Battle Mountain.

The excellent hotel accommodations here are at present being taxed to the limit, and then some. When you come to Battle Mountain it may not be necessary for you to bring your bed along with you, but as a matter of precaution it would be wise for you to do so. You can depend on getting plenty to eat, but you may have to sleep in the roof garden or in the coal shed. So great has become the influx of people that one night this week the strange spectacle of sixteen men sleeping on the bare earth wrapped only in blankets and slumber, was seen in the yard of the Nevada hotel.

As they peacefully wooed the dream god, Morpheus, a chorus of snores differently keyed and variously toned, fell upon the night air and mingled with the noise of the town, rendering a nocturnal, less harmonious, perhaps, than those of Chopin, but more natural. Some talked in their sleep of tramps across the desert and the search for gold; others snoozed silently, but doubtless all dreamed of the fortunes yet to be wrested from the earth.

Do you know that Pinesalve Carbolicized acts like a poultice in drawing out inflammation and poison? It is antiseptic. For cuts, burns, eczema, cracked hands it is immediate relief. Sold by Tonopah Drug Co.

## ENDS LIFE AT CHURCH ALTAR

**SEATTLE, Oct. 19.**—As A. H. Gourlay, leader of those who call themselves members of the Apostolic Church of God, was exhorting his flock tonight, Edward Kelly, a working man, walked down the aisle to the altar, where he drew a revolver and sent a bullet through his brain.

As he did so a young woman, Eva Kesterson, shrieked and then attempted to make her way through the crowd, which had sprung from the pews, to the street. It was because of love for her, that was not returned, that Kelly committed his rash deed. The still breathing man was hurried to a hospital, where he died within a few moments after he fired the shot.

Neither Miss Kesterson nor the relatives of Kelly will talk of the affair, further than to state that Kelly, who was only 19 years old, was in love with the girl, who is 16. The Apostolic Church of God is of a nature akin to that of the infamous Holy Rollers, who flourished in Oregon some years ago. The disciples of the peculiar doctrine throw themselves on the floor and declare that while they are in their paroxysms the devil leaves their bodies. The pastor has been arrested several times and charged with maintaining a nuisance.

## WAS SHOT DOWN IN COLD BLOOD

**EVANSTON, Wyo., Oct. 19.**—Tom Downs, an oil driller in the employ of the Salt Lake & Pittsburg Oil Co., shot and killed Ira Taylor, a fellow worker, yesterday shortly after the noon hour, on the company's works at Spring Valley, a place about 18 miles from here.

Downs recently came from Florence, Colo., to work for the oil company at Spring Valley. He was under the influence of liquor yesterday, and when the men assembled to partake of their midday meal, he seemed to be rather quarrelsome, arguing with the men about politics and other subjects that the others would talk with him about. After the dinner was over, they went to the bunk house, and it was here that Downs shot and killed Taylor, seemingly in cold blood.

Downs claims Taylor killed himself, but everything is against this theory, as a postmortem examination revealed the fact that it was impossible for him to have shot himself.

Downs is in the county jail here awaiting a hearing. There may be a woman in the case and is perhaps the only motive for the killing.

## UNIONS HOSTILE TO THE MILITIA

**NEW YORK, Oct. 19.**—It developed today at a sitting of the Wainwright commission at the Seventy-first Regiment armory that one of the greatest difficulties in procuring recruits for the various organizations of the National Guard lay in the antagonism of the labor unions, due to the vigorous way in which the militia has suppressed disorder.

Among the officers called before the commission was Major William Du Bois of the Twenty-third Regiment. He said that he believed it necessary to take some steps to stop the antagonism of the unions. In many cases employers of labor had not dared to join the National Guard, as their men threatened to go out at once if they did so.

## INDIAN TO PAY DEATH PENALTY

**WINNEMUCA, Oct. 19.**—"Buckaroo" Jack, the Indian who shot his wife some time ago because she was unfaithful to him, was found guilty today in Judge Pike's court at Winnemucca of murder in the first degree with the penalty fixed at death. This is the first instance under the law of 1907 where the jury has the fixing of the degree of punishment in murder cases.

"Buckaroo" Jack made the "unwritten law" his defense, but the jury held that he was not justified in taking the life of his wife for her actions. The Indian bore the verdict with the usual stoicism characteristic of his tribe. The date of execution will be set later.

"For Rent," "For Rent Furnished" and "For Sale" cards on sale at the Bonanza office.

## WOMAN WHO WORE MAN'S CLOTHING

**NEW YORK, Oct. 19.**—It transpires that the woman who was arrested Tuesday night for wearing man's clothes in public, and who gave her name as Mrs. Dorothy Clarke, is Mrs. Charles Pool, who hails from San Francisco, and who was saved a few months ago when about to commit suicide by jumping into the river here.

There are numerous discrepancies in the stories she tells. One account has it that her parents were Mrs. and Mrs. Robert S. Clarke of San Francisco and that her mother died when she was 15. Another is that her father was John Clarke, captain of a Pacific coast steamer; that she was born in Alaska, where her mother still lives, and that her father placed her in a Dominican convent in San Francisco to be educated.

She says she is now 35 years old, and that when 14 she eloped with Julius Meyer, paying teller in a San Francisco bank, and, after four months her guardian had the marriage annulled, her father being then dead. She says she came to New York to look for her husband, who, as Charles Pool, inherited a large estate and deserted her, and that she wore man's clothes so she might visit saloons and other places in search of him. She looked like a young man in male attire, but when she chanced to scream, a policeman realized her sex and took her to the Jefferson Market prison, where she has since been kept.

## LOWEST PRICE IN SEVERAL YEARS

**NEW YORK, Oct. 19.**—At the close of a two hours' session, the stock exchange greeted with relief the end of a troubled and anxious week. The breathing spell over the week end is looked to with satisfaction with hopes of clearing up of troublesome factors and the re-establishment of confidence. That that confidence is still lacking today was shown by the feverish and uncertain fluctuations in prices. There were points of some resistance in the market and an occasional marked rebound in prices, but these ran out in wild hesitating fluctuations, which brought no assurance of stability. The whole market sold off to the lowest of the day in final dealings and closed weak. These prices are, as a rule, the lowest made in the stock market for several years past. In copper stocks, Reading and Harbors there was an evidence of active liquidation again. This proved that the selling out of loans in the process of cleaning up that is being pursued by the banks was still in progress.

## ATTEMPTS SUICIDE IN LODGING HOUSE

**LOS ANGELES, Oct. 19.**—With two bullet holes in his head, an unidentified man entered apartments in a lodging house occupied by the family of W. B. Holt today and threw himself upon the bed where Mrs. Holt and an infant child were lying. The family fled and the wounded man was overpowered by the police after a struggle. It was ascertained that the man attempted suicide after destroying all clues to his identity. He will probably die.

## CHURCH CHIMES.

There will be a meeting of the ladies of the congregation of St. Patrick's church after the 11 o'clock service, in the rooms back of the church, in regard to the coming Halloween dance. All are urged to attend.

Mr. Burrows will sing, by request, the "Cujus Animam," which he so beautifully rendered last Sunday. It is seldom that one hears such a fine voice as Mr. Burrows possesses. The choir will render the Leonard's mass, Mrs. Pope, soloist, Miss Bawden, organist.

## NEW ADVERTISEMENTS.

## PAVILION THEATRE

**ALL NEXT WEEK**  
Commencing Sunday night,  
**OCTOBER 20th**

Arthur J. Aylesworth Presents

**MISS DELLA PRINGLE**

And her excellent Stock Company.
